

## Bonding & Cleaning

Accessory products specially formulated for ACRYLITE®

### ACRIFIX® Specialty Bonding Agents

Evonik's range of ACRIFIX® Specialty Bonding Agents and auxiliaries offer the ideal solution for every application, always providing a perfect bond between ACRYLITE® as well as other grades of acrylic and materials.

ACRIFIX® cements were developed as high performance products for bonding extruded or cast acrylic (PMMA), preferably ACRYLITE® products, to itself as well as to other materials. Learn more at [www.acrifix.com](http://www.acrifix.com)

#### Solvent Based Cement

ACRIFIX® 1S 0117  
ACRIFIX® 1S 0116  
ACRIFIX® 1S 0107 (Quick Set)  
ACRIFIX® 1S 2105 (Quick Set)

#### Reactive Cement

ACRIFIX® 2R 0190  
ACRIFIX® 2R 0195  
ACRIFIX® 1R 0192 (UV cured)  
ACRIFIX® 2R 1074

#### Auxiliary

ACRIFIX® CA 0020 (hardener)
