

Total Plastics, Inc.™ is a distributor of plastic sheet, rod, tube, film and tape. We stock thousands of diverse plastics and related products across the United States. Our value-added services and quality products set us apart from the competition. We offer solutions for a number of industries including:

- Aerospace
- Chemical Manufacturing
- Electronics
- Engineering
- Food Processing
- Glazing
- Life Sciences
- Lighting
- Machining
- Maintenance
- Marine
- Medical
- Petrochemical
- Signage & Graphics
- Transportation

We take pride in providing quality products, quick turn-around, accurate shipments and superior service through our dedicated and knowledgeable staff. Our sales team is readily available to answer your questions and provide the personal service you deserve.

Total Plastics commits to on-time delivery through our extensive network of distribution centers and strong supplier relationships.

VALUE-ADDED SERVICES

Total Plastics is not just a material supplier. Our value-added services are available to save you time and cut costs. We have a custom solution for you!

Our valued-added services include:

- Cut-to-size
- Custom Packaging & Assembly
- Fabrication & Die-Cutting Services
- Hold for Release
- Machining Services
- Tape Conversion
- On-Time Delivery
- Superior Customer Service

Look for these symbols related to special products or value-added services.

FABRICATION SERVICES

Total Plastics is a full service supplier of materials, parts and completed fabrications. We offer state-of-the-art manufacturing operations and experienced craftsmanship. Contact us to quote your next project, whether it's a single prototype or a large roll-out. Providing local cost-saving solutions is our specialty.

Our Fabrication and Die-Cutting services include:

- Assembly
- Attachment
- Bonding
- Buff Polishing
- CAD Design & Engineering
- Clean Room
- CNC Routing
- Cold Forming
- Cut-to-Size
- Die-Cutting
- Drape Forming
- Fastening
- Flame Polishing
- Hand Routing
- Hot Stamping
- Instruction/Parts Sheets
- Lamination
- Laser Cutting
- Line Bending
- Masking
- Milling
- Mounting
- Multi-Head Drilling
- Packaging
- Painting & Coating
- Perforating
- Planing
- Prototyping
- Seal Bonding
- Shearing
- Silk Screening
- Slitting
- Solvent Bonding
- Spooling
- Welding

WE DELIVER PERFORMANCE

Total Plastics, Inc. is headquartered in Kalamazoo, Michigan with 16 distribution locations across the United States. We offer worldwide shipping with on-time delivery. We're known for going the extra mile to take care of our customer's needs.

PRICES: All prices in this catalog are subject to change without notice. Quantity discounts are stated where applicable. Competitive prices may be available on large volume orders.

QUOTATION REQUESTS: Total Plastics, Inc.™ welcomes the opportunity to quote on all your plastics and related material requirements. Please contact your local Total Plastics, Inc. service center (See pages II & III).

IMPORTANT NOTICE: The information and statements in this catalog are believed to be accurate, but should not be construed as a warranty or representation for which we assume legal responsibility. Users should undertake sufficient verification and testing to determine the suitability of any information or products herein for their own particular purpose. No warranty of fitness for a particular purpose is made.

TERMS OF SALE: All sales are F.O.B. shipping point. Payment terms are net 30 days from the date of invoice. A service charge of 1-1/2% per month will be charged on past due invoices.

RETURNS: No goods shall be accepted for return without prior written authorization of TPI. There will be a 25% restocking charge on all returned goods (non-processed, original shipped condition) accepted by TPI. No returns will be accepted after 30 days from the date of delivery to you, our customer. Goods which have been processed or fabricated may not be returned.

CANCELLATION: Any cancellation must be approved by Total Plastics, Inc. and may be subject to restocking and other charges.

LIMITED WARRANTY: All items are produced to standard commercial specifications and tolerances. Any defect or variance in specifications are warranted by the manufacturer. Total Plastics, Inc.™ liabilities are limited to the cost of the defective material or part.

CREDIT: All open account purchase orders must be signed by an authorized person. Please indicate if it is a confirming order. To request an open account, supply a bank reference and three trade references. Credit terms may be withdrawn from any customer who fails to maintain their account on a current basis. Customers are liable for any and all legal fees incurred in collecting delinquent accounts.

MINIMUM ORDER: Minimum order is \$75.00. The minimum may be higher on special items. Orders for less than the minimum invoice amount will be charged a small order charge of \$15.00.

FORMS OF PAYMENT: Total Plastics, Inc.™ accepts American Express, Mastercard, Visa, Checks, Money Orders and Traveler's Checks as payment.

Total Plastics, Inc.[™] and its suppliers are committed to making the world a better place to live through plastics technology.

Plastics possess the following characteristics which improve the quality of our lives with minimal environmental impact.

- **Lightweight:** Plastics are lighter than other materials, reducing energy usage and transportation costs.
- **Easy to Work With:** Plastics conserve resources and manpower, leading to reduced injuries.
- **Low Maintenance:** Plastics offer extended product life with little or no maintenance.
- **Air & moisture Barrier:** Plastics minimize mold, reduce contamination and improve insulation.
- **Recyclable (or may contain recycled content):** Recycling plastics saves energy and reduces solid waste.

Total Plastics actively recycles its scrap plastic.

- **Innovative:** Plastics make possible many of the newest medical procedures that extend and improve the quality of our lives.
- **Reduce Pollution:** During the manufacturing of plastics, less pollution is generated compared to the products replaced by plastics. In addition, chemically resistant plastics are less likely to leak and spill pollutants into the environment.
