Total Plastics Inc. is a full line pressure sensitive tape converter carrying preferred products from leading manufacturers such as Saint-Gobain Performance Plastics®, Permacel® and 3M®.

Total Plastics, Inc., offers adhesives with a multitude of options. Whether you require a transfer or double coated film to laminate to your product, or need a pressure sensitive adhesive laminated to one of ours, we have the expertise, products and equipment to meet your needs.

Die-cut parts are available in intricate shapes and offer many advantages, including ease of use and assembly, tight tolerances and low tooling costs. We have in-house capabilities to die-cut large individual parts or small, high volume parts kiss-cut on rolls. We cut a variety of substrates ranging from films and foams to .250” thick plastic.

Kiss-cutting parts involves die-cutting through a given substrate while leaving the release liner intact. Kiss-cut parts are easier to remove from the backing liner and can be supplied on rolls for convenience in production and inventory control.

High production applications may require our material to be put up on reels. Both extrusions and foam tapes can be spooled in continuous lengths of several hundred feet to several thousand, depending on the particular material make up and dimensions.

We stock our materials in wide webs and cut to width, allowing you to specify the exact sizes required for your job. Lengths will vary depending on the particular material make up and thickness.
### Foam for Sealing & Gasketing

**FEATURES**
- Closed Cell PVC Foam
- Gray, Black or White
- High Performance Acrylic Plastisol Adhesive on 1 Side
- Two-Sided Adhesive Available
- Positive Moisture, Dust & Dribble Seal
- Low Water Absorption for Long Seal Life
- UV Resistant
- Resists Fungi, Weather & Ozone
- Will Not Drip, Ooze or Run Under Compression
- Stays Flexible, Will Not Dry Out, Get Brittle or Crack
- Reduces Sound Transmission & Vibration
- Wide Temperature Range (-30°F to 180°F)
- Easily Die Cut into Shapes

**APPLICATION BENEFITS**

**High Performance Bonding & Attachment Tapes**

**FEATURES**
- Closed Cell Polyethylene Foam
- White or Black
- Quick Stick Rubber Pressure Sensitive Adhesive or High Performance Acrylic PSA
- Temperature Range Rubber PSA (-20°F to 125°F)
- Temperature Range Acrylic PSA (-40°F to 180°F)
- Easily Die Cut into Shapes
- Conformable, Closed Cell Polyethylene Foam
- All Weather High Bond Acrylic Adhesive
- White, Black or Gray
- Excellent Shear & Peel Strength
- Wide Temperature Range (-40°F to 200°F)
- Easily Die Cut into Shapes
- 100% Closed Cell Acrylic Construction
- All Weather High Bond Acrylic Adhesive System
- Clear, White or Gray
- Excellent Shear & Peel Strength
- Wide Temperature Range (-30°F to 200°F)
- Easily Die Cut into Shapes

**SPECIALTY PRODUCTS**

- Vinyl Marking Tape
- UHIFN Film Tape
- Non-Skid
- Masking Tape
- Vinyl Coated Tape
- Non-Skid Tape
- High Performance Adhesive Backed
- Acrylic Adhesive Backed
- Black or White
- Vinyl Coated Tape
- 6 Mil Thickness
- 15 Colors
- Conformable

**Emblem Attachment**

- Panel Stiffener Attachment
- Emblem Attachment
- Hardware Gasket
- Fuel Tank Vibration Dampering
- Sound Attenuation
- Window Seal
- Porthole Seal
- Radar Mount Seal
- Hatch Cover Gasket
- Windshield Gasket

**EPT Sealer**

- 1/8" x 3/4" Thickness
- 6 to 8.5 Lbs./Cu. Ft. Density
- Black

**Neoprene Blend**

- 1/16" to 1" Thickness
- 25% Comp. Deflection 5-8 psi
- Black
- UL94-H1 Recognized

**Butyl Coated PVC Foam**

- 1/8" to 1/2" Thickness (1-1/2" max. width)
- 7 Lbs./Cu. Ft. Density
- Black
- Aggressive Tack & Conformable

**EPTM - Bulb Seals**

- Custom Thickness & Width
- Various Densities
- Black
- Standard Profiles Available
- Transportation Grade Bulb Seals

**3M™HB® High Performance Bonding Systems**

- Acrylic foam and adhesive system
- Over 30 formulations available
- Excellent environmental resistance
- Reduces or eliminates liquid adhesives and mechanical fasteners
- Distributed stress over a large area, eliminating surface distortion
- Reduces noise by reducing vibration
- Reduces manufacturing costs

**Non-Skid Tape**

- 1/2" to 3/8" Widths
- 60 Ft. Standard Length
- Dye Cuts Available
- Black or Gray

**UHIFN Film Tape**

- 3 to 20 Mil Thickness
- Acrylic Adhesive Backed
- Black or White
