ACRYLITE® Trend Textured acrylic sheet

Textured

Textures and Colors for Every Taste

Trend textures, combined with tried-and-true colors, offer many options for all imaginable designs and applications — whether classy or country-style, understated or eye-catching.

Light and Discreet

ACRYLITE sheet with a textured surface protects you from inquisitive eyes, but still lets in plenty of light and offers a feeling of space.

Unlimited Creative Freedom

With ACRYLITE sheet it's the easiest thing in the world to create any chosen shape by drilling, sawing, bonding and routing. Textured ACRYLITE sheet can, of course, also be cold-curved or durably thermoformed, offering completely new opportunities to obtain surprising effects.

Lightweight and Stable

ACRYLITE sheet is half the weight of glass and is many times more break-resistant. Those are major advantages for anyone who needs to transport, install, fabricate or fasten the material.

Safety

- Many times more shatter resistant than glass.
- In the event of fire, no dangerous smoke or toxic substances are emitted.

Trend Line

Applications

Ideal for decorative glazing of private, commercial or public structures.

Wherever you want:

- balcony glazing
- privacy panels
- porches
- windscreens

- partitions
- door glazing
- banisters
- shelves

- furniture components
- bathroom cabinets
- P-O-P displays
- tradeshow booths

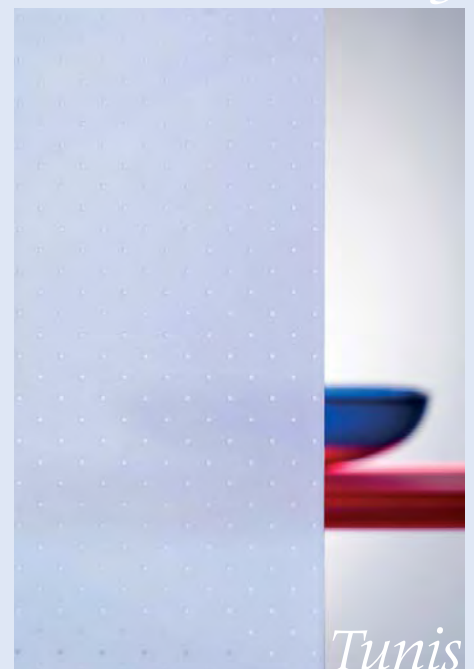

Textured ACRYLITE acrylic sheet
